EDUCATION

Bachelor of Business Administration (BBA)
DY Patil University, Ambi, Pune

Expected 2027

WORK EXPERIENCE

Associate Sales Executive (Project Coordinator)
Setoo Solutions

February 2026 – September 2026
Pune, Maharashtra

- Coordinated end-to-end staff augmentation for 40+ enterprise AI hiring requirements, achieving 90% on-time delivery through cross-team and vendor alignment.
- Established and grew the vendor network by 34 partners, achieving 74% vendor base growth and enabling rapid fulfillment of strategic technical roles.
- Collaborated with enterprise clients and vendors to resolve operational roadblocks, leading to a 20% reduction in cycle time for hiring processes.

Sales & Marketing Intern
Setoo Solutions

July 2025 – January 2026
Pune, Maharashtra

- Drove market research and user segmentation to identify 60+ prospect opportunities, improving qualified pipeline by 35%.
- Developed business proposals, presentations, and collateral supporting business development, leading to a qualified opportunity and partnership talks for UK expansion.
- Managed lead tracking using standardized tools, facilitating cross-team communication and accelerating lead nurturing cycle by 20%.

PROJECTS

BookMyShow – Entertainment Discovery Enhancement
[GitHub](#) | [Live Demo](#)

Supabase, Render, Netlify, Gemini API

- Goal:** Improve entertainment discovery and increase discovery-led booking conversion from 18% to 32% by addressing key user drop-off points.
- Impact:** Identified that 70% of drop-off reasons were concentrated around user confidence, with budget emerging as the #1 decision factor, shaping the product strategy and feature priorities.
- What I did:** Conducted 30+ user interviews, mapped user journeys, prioritized AI-powered features using the RICE framework, and built a functional no-code prototype using Supabase, Render, and Gemini API, presented through a 15-minute live demo to 10+ stakeholders.

Electronic Arts Product Management Job Simulation

- Goal:** Improve feature adoption and user retention through product performance analysis
- Impact:** Identified key engagement patterns and opportunities for product improvement.
- What I did:** Analyzed KPIs and player segments and translated customer insights into roadmap recommendations.
